Junior Full-Stack Web Developer

About Me

I am a full-stack web developer with over 20 years of experience in Information Technology, bl combination of development, user support, and functional skills and responsibilities. As an ac designer, I take pride in ensuring that I fully understand my users' requirments, and that those fully and properly implemented in my code. With extensive experience as both a developer ar analyst, I am able to collaborate effectively with all members of any project team, both technic: well-accomplished in testing/QA, project/team leadership, and knowledge transfer (both indivic respectful of deadlines, and ready to go the extra mile to get the job done on time.

Projects   *(Each box will be a link to the repo for that project*

Please click on a box to be linked to the project github repo. All of my projects can be found in https://github.com/stevewebdevfl or https://github.com/steve54b
